# Advanced Breast Biopsy Workshop

20th  
APRIL

9 AM - 5 PM

ST.BARTHOLOMEW'S  
HOSPITAL

This one day course will include hands on experience with a variety of biopsy techniques including core biopsy, localization (seed and wire) techniques, vacuum and tomosynthesis biopsy and vacuum excision techniques. This course is suitable for breast radiology SpRs, advanced practitioners, consultant mammographers and radiologists. Led by the Barts Breast Radiology team, delegates will be in small group for hands on experience.

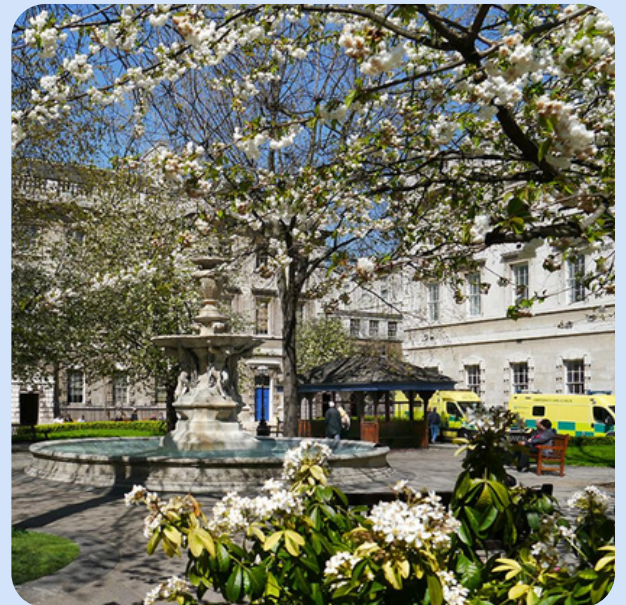

\*This course provides 8 CPD credits in accordance with the CPD Scheme of the Royal College of Radiologists'.
